

West Valley Transportation Department wants to ensure that all students in our district always have a safe and positive bus riding experience. We use the Positive Behavior Intervention System (P.B.I.S) throughout our district in which our school staff, bus drivers and department administrators acknowledge and reward positive behaviors, educate students on **B.U.S.** expectations (**B**e responsible, **U**se safety, **S**how respect) and follow a progressive consequence method when expectations are not met.

The school bus is an extension of the classroom and discipline related to bus transportation is administered from the transportation department, and when applicable, with the assistance from school administrators.

However, due to differing schedules, contact numbers being invalid, and/or voicemail systems not available; phone contact is sometimes difficult. In the event phone contact is not made, and parent/guardian has an email address on file, contact will be made via email. A letter with incident details will be mailed home on every written offense.

\*\*Bus suspensions are NOT school suspensions. When a student is suspended from the bus, the suspension applies to all district school buses including shuttle buses that transfer students to the Junior High to student's assigned route buses. If a student is on suspension from bus transportation, parent(s)/guardian(s) are responsible to ensure their child gets to and from school during the bus suspension period.

The Transportation department reserves the right to bypass procedure steps on either minor or major incidents and apply consequences (including suspensions) based on the severity and/or continual behavior(s) of the student's conduct.

In the event behavior(s) endanger the driver or other student(s), and/or involves criminal conduct (assault, weapons, drug possession, vandalism, etc.) District Administrators, School Administrators, and/or Law Enforcement will be notified and consequences such as school expulsion and criminal charges may result.

*Parents wishing to appeal disciplinary actions should refer to West Valley School District policy 3241 appeal process for further information.*

### **HARASSMENT & BULLYING**

Our school district is committed to a safe and civil educational environment for all students, employees, volunteers and patrons free from harassment, intimidation or bullying. WVSD Policy 3207. Harassment, intimidation or bullying means any intentional verbal, physical act, written message or image (including those that are electronically transmitted).

To report an incident of harassment, intimidation, or bullying, contact the Transportation Department at (509) 972-5590 or the student's school campus administrator.

- Hazardous materials (flammables, weapons, knives, explosives, lighters, matches etc.)

Specific attention is directed to items such as skis, ski poles, vaulting poles, large musical instruments, riser platforms, etc. In no case will items be secured in such a manner as to impede access to any exit. Items which shall not be transported within the passenger area of a school bus include all forms of animal life (except service animals), firearms, weapons, breakable containers, flammables, **and all other articles which could adversely affect the safety of the school bus and passengers.***

Several students enrolled in our district have severe food allergies and/or asthma that cause them to have a severe reaction when exposed to allergens. Due to the dangers of allergic reactions and choking hazards the following applies:

- Students will not be allowed to eat, drink, or chew gum on the bus when riding on their daily bus routes to/from school. (Water only)
- Students that are riding on a bus for field trip or sporting events may be allowed to eat with the teacher or coaches' permission. Eating/drinking will be allowed only if there are teachers/chaperones/coaches present on the bus to monitor students for choking or adverse allergic reactions.
- Students will not be allowed to use perfume, cologne, after shave, heavily scented hand lotions/sanitizers, etc. on the buses. **Such items are to be inside their backpacks/bags at all times while on the bus.**

### **KINDERGARTEN/PRESCHOOL**

A parent/guardian or authorized adult **MUST BE PRESENT** to receive child. If an adult is not present, the child will be kept on the bus and bus driver will bring child back to the Transportation Department at the end of the route. The bus driver will contact the transportation office to let them know that student is on-board and will be returning the student to the Transportation Department. Parent/Guardian or authorized adult will pick child up at the Transportation Department (7509 Ahtanum Road, Yakima).

If parent/guardian wants their child to walk from the bus stop home with an older sibling or to authorize release of child to an older sibling/relative at the bus stop, the parent/guardian must contact the Transportation Department to make such arrangements at (509) 972-5590.

When a kindergarten student's stop location requires the student to cross the roadway to get to and from the bus, the child and **parent/guardian with the child, must follow the same crossing procedures as all students.** For the utmost safety of our students, it is critical in teaching students the proper crossing procedures to ensure they understand how to safely cross with or without a parent/guardian present. Bus driver's will make eye contact with student(s), display a palm up hand sign to stay/wait, and when it is safe to cross, the bus driver will extend their arm out with a sweeping motion that indicates its ok to cross and it is only at this point that any crossing occurs.

Parents/guardians are responsible for the supervision of their child/ren at the bus stop location prior to bus arrival and after bus departure.

## **VIDEO CAMERAS**

Most of our buses are equipped with video cameras and will be used as a tool to ensure onboard safety and for student management. Transportation Administrators, Transportation Personnel and School Administrators are authorized to view bus camera videos. Transportation Administrators and School Administrators are authorized to take appropriate disciplinary action to correct any inappropriate behaviors reflected on the video. Video tapes and clip recordings remain the property of the district and may be reproduced only in accordance with the law.

Due to the privacy of all students in our district, our videos are not available for public viewing. In cases of certain student behavior and/or safety issues, and upon the discretion of the Transportation Director, the parent(s)/guardian(s) of student(s) involved in the case may view segments of the video. In such situation, an appointment must be scheduled with the Transportation Director.

## **ALTERNATE STOP / BUS PASSES**

In accordance with the Washington Administrative Code (WAC) 392-145-060

*Loading and Unloading: The following procedures are required to assure maximum student safety:*

*(1) A school bus driver shall not order or allow a student to depart the school bus other than at his or her regular stop unless permission is first obtained in accordance with district policy.*

Any student who wants to be dropped at another stop location other than their assigned regular stop, must take a parent/guardian signed note to his/her school campus office and obtain a "School Bus Pass". The School Bus Pass must be presented to the bus driver when boarding the bus. If student boards without a Student Bus Pass they will be directed back to the school office to call parent/guardian for pick up. School buses are on a time-sensitive schedule and are not able to wait for student to obtain last-minute parent authorization and School Bus Pass. Students are responsible for obtaining their School Bus Pass no later than two hours before the end of the school day release or per student's school office policy. **Parents/Guardians are responsible for checking with their child's school campus office on the school policy for obtaining a bus pass prior to needing the child to ride to an alternate stop.**

## **STUDENT STOP LOCATIONS**

Majority of our bus routes pick-up and drop-off locations are established and will not be changed. Stops are established using Washington State and West Valley School District statutes and policies. Additions of any stop must be approved by the Transportation Director or Transportation Coordinator prior to establishing the stop. The Transportation Director or Transportation Coordinator may take up to three (3) days to access the physical location factors and access the aspects of Washington State Statutes before a new stop is established for pick-up or drop-off.

On the occasion when a student or the driver may have missed the stop, or the student boarded the wrong bus, students need to advise the driver and are not to get off the bus at any other location in accordance with WAC 392-145-060 Loading and Unloading Procedures

The following procedures are required to assure maximum student safety:

- (1) A school bus driver shall not order or allow a student to depart the school bus other than at his or her regular stop unless permission is first obtained in accordance with district policy.

Parents/guardians are responsible for the supervision of their child/ren at the bus stop location prior to bus arrival and after bus departure.

## STUDENT CROSSING AND DANGER ZONES

For the safety of students, they should maintain a minimum 10 - 12-foot distance from the sides and front of the bus when waiting for the bus, departing the bus and/or crossing. The 10 feet of area in front of the bus and the 10 feet of area around the bus, are the most dangerous areas of school buses due to limited visibility and blind spots. The driver's side of the bus is an additional danger area due to cars attempting to pass the bus from that side.

When a student needs to cross the roadway to either load or unload the school bus, the following process shall be followed:

- At the pick-up stop the student shall stay back and wait on the street sidewalk or 10 - 12 feet back from roadway shoulder/driveway until the bus has come to a complete stop and the bus door has opened.
- At the drop off stop the student should move away from the bus as quickly as possible and never walk alongside or behind the bus. If a student needs to approach the bus after walking off the bus, the student must stand back from the bus at a 10 - 12 foot distance, make eye contact with the driver, and wait for driver's instruction on when to approach the bus.
- Students that cross when boarding the bus must stand back on the sidewalk or 10-12 feet back from the roadway shoulder/driveway and wait until the bus has come to a complete stop, the bus 8-way light system is fully engaged with stop paddle deployed and the driver has given the hand signal for crossing, before crossing.
- Students that cross when offloading must walk out 10 - 12 feet in front of the bus (at the end of the crossing arm), stop, make eye contact with the bus driver and await (as a group) for the bus driver's signal before crossing. When student(s) has received the signal from the driver, they must all walk together at the same time straight across staying 10 feet away from the bus.
- Parents/guardians must follow the same crossing procedures as students, including waiting for the driver's hand signals and walking at the same time as all other students at the stop.

## BUS DELAYS

Buses will occasionally be delayed due to uncontrolled factors such as weather, traffic and road conditions, road construction, mechanical breakdowns or late departures from school campus. Our school district transports an average of 3500 students daily to and from school and the Transportation Office is unable to contact all parents/guardians with all delays that may occur. If an extended delay occurs, School Administrators will be advised of the situation.

### ○ Beginning of School Year Delays

During the start of each school year for the first few weeks, the logistics of the route schedules are still in minor adjustment of times and stops as well as, kindergarten schedules. The volume of calls received at the Transportation Office during this time period is very high. The transportation staff work very hard to attend to everything, but are not adept at getting to all calls and unfolding circumstances in a timely manner during business hours the first month of school. Every effort will be made to inform parents and return calls, and your patience and understanding during this time is appreciated. If you have not been able to connect with our office and your phone message has not been responded to, we ask you to please continue to call the Transportation Department during that time or email Transportation Coordinator at [boyled@wvsd208.org](mailto:boyled@wvsd208.org) .

### ○ Winter Weather Delays or School Closures will be announced no later than 5:30 am on:

- Flash Alert Email Notifications
- District website: [www.wvsd208.org](http://www.wvsd208.org) under Departments in the Transportation Tab, Click on "closure information"
- District snow info line (509) 972-6002.

In inclement weather the Transportation Director drives several back roads and city street areas within the district boundaries to evaluate road conditions. Consideration for our students who live in the outlying and rural areas is a key focus of the decision on delays or closures. The conditions are reported to the Superintendent for final assessment and decision on delays or closures.

Not all routes have alternate stops assigned on snow routes. The stops affected in inclement weather will be advised of the alternate location to use prior to the winter season. When delays or alternate snow routes are issued it will only apply to the stops that have been notified prior and all other stop locations will remain the same.

In winter, school buses will drive at slower speeds for the conditions and safety and may be delayed arriving at assigned stops. We ask that for student safety, that students dress warmly with appropriate winter clothes and shoes and await the bus a minimum of 10 - 12 feet back from the sidewalk or road shoulder and remain at that distance **until the bus comes to a complete stop and the driver opens the door**. Students should use the step handrails when boarding or offloading the bus to prevent slipping on icy steps.

- Bus Incident Control Delays

When bus discipline problems are so disruptive that the driver feels it is unsafe to proceed, then the driver may stop and secure the bus in a safe location until order is restored. These are occasional occurrences, and may result in route delays. The potential danger of proceeding with an extremely unruly busload of students outweighs the bus being late.

- Bus Mechanical Delays

As with any other motor vehicle, school buses may occasionally have mechanical breakdowns. In these situations, the Transportation Department mechanics are advised and dispatched out with another bus in which the driver and students on board will transfer on to. The transportation office will coordinate with other area route drivers to assist in picking up or delivering the remaining students. If the delay is in the morning, schools will be notified that students from the delayed route will be arriving late.
